Strange BUT TRUE

By Lucie Winborne

* A microwaved baseball will fly much farther than a frozen one, as warmer balls weigh less and move faster due to less air resistance.

* Each strand of a human hair can contain traces of 14 elements, including gold.

* During a period in his artistic career, Pablo Picasso primarily used shades of blue in his paintings, reflecting his melancholic state at the time.

* It's not just humans who use "baby talk" with their offspring: Mother bottlenose dolphins have been observed altering their whistle pitch and range when communicating with their calves.

* Hawaii had no mosquitoes until the 19th century, when they were accidentally introduced by trading ships.

TODAY'S WORD

"Honey, I found out what keeps my budget from working. Your _____."

HOROSCOPE

ARIES (March 21 to April 19) A relaxed mood early in the week could give way to high-temperature disputes. The Aries Lamb should resist being pulled into heated quarrels that could really singe your wool.

TAURUS (April 20 to May 20) Satisfy that practical obligation first, then feel free to indulge in your creative endeavors. Also, check for hidden or overlooked areas where repairs might be long overdue.

GEMINI (May 21 to June 20) Home is still the Twins' major focus this week, but outside matters begin to take on added importance, especially those involving possible career moves. Stay alert for signs of change.

CANCER (June 21 to July 22) A travel plan might need to undergo some considerable adjustments because of unexpected changes. Keep an open mind and let the facts guide you on how you want to handle this.

LEO (July 23 to August 22) Playing cat and mouse with a matter you've been avoiding wastes time, energy and, most importantly, an opportunity. Ask someone with experience to help you get started.

VIRGO (August 23 to September 22) A shift in policy might not please you, but before you put up a "no go" wall of resistance, examine the circumstances. You might be pleasantly surprised at what you find.

LIBRA (September 23 to October 22) Yesterday's critiques about your methods might have already evolved into today's praise for your achievements. Good for you. Now go on and continue to build on your credibility.

SCORPIO (October 23 to November 21) An occasional temperamental flare-up might occur, as you continue to help get things back to normal. Stay with it. You should soon get some idea of where to take things next.

SAGITTARIUS (November 22 to December 21) A negative reaction to what you believe was a well-deserved request might mean that you need to reconsider your position and make changes accordingly.

CAPRICORN (December 22 to January 19) There's always room for someone new at the Sea Goat's table. The someone new for this week could bring a message you've been waiting a long time to hear.

AQUARIUS (January 20 to February 18) A pile-on of personal matters this week might seem too overwhelming to deal with, but handling them on a one-by-one basis could have you out from under it by the weekend.

PISCES (February 19 to March 20) A friend might need your good advice regarding a matter. Be supportive, but unless you can be absolutely sure you have all the facts, also be careful about any suggestions you're asked to offer.

BORN THIS WEEK: You have a talent for bringing out the best in people, no doubt due to your inspiring work ethic and sensitive nature.
