Strange BUT TRUE

By Lucie Winborne

* According to Cunningham's Law, the best way to get the right answer on the internet is not to ask a question, but to pose the wrong answer.

* Never mind Freddy Krueger's mutilated face and clawed glove -- Wes Craven designed his red-and-green-striped sweater after he read in Scientific American that the human eye has difficulty recognizing those particular shades. Therefore, just looking at his pullover is subliminally unsettling!

* The first item sold on eBay, for \$14.83, was a broken

laser pointer, to someone who kept a collection of broken laser pointers.

* During the Apollo 12 mission, a 2 1/2-ton piece of the lunar module was experimentally crashed onto the surface of the moon, with a quite unexpected result: The moon "rang like a bell" for nearly an hour.

* Dockers recently increased the size of their coin pockets to accommodate the growing size of smartphones.

* In 1999, 15-year-old Jonathan Lebed was making up to \$74,000 a day in the stock market by using internet message boards to manipulate prices. The government eventually caught up with him, but he was still able to keep half a million dollars of his gains.

* Vending machines kill more people per year than sharks.

Thought for the Day:

"Love doesn't make the world go round. Love is what makes the ride worthwhile."

-- Franklin P. Jones

HOCUS-FOCUS

BY HENRY BOLTINOFF

Find at least six differences in details between panels.

Differences: 1. Nose is different, 2. Tie is different, 3. Picture is moved, 4. Handle is different, 5. Sleeve is shorter, 6. Chair back is lower.

HOROSCOPE

ARIES (March 21 to April 19) Single Lams looking for love could find Cupid aiming at someone you thought (wrongly) was uninterested. PAIRED SHEEP could soon make plans to move into new pastures. TAURUS (April 20 to May 20) Level that sharp Bull's eye of yours directly at the target you're after. Don't let yourself get sidetracked by any misleading or deceptive attempts to distract you. GEMINI (May 21 to June 20) Early

enthusiasm gives way to a more reflective attitude, as you assess the potential of a new job. Avoid questionable advice. The ultimate decision should be yours. CANCER (June 21 to July 22) You might need to reassess the responsibility you've taken on. Consider delegating some of the tasks to people you trust and focus on those things you do best. LEO (July 23 to August 22) Don't be shy about sharing new ideas with your workplace colleagues. Their warm reception and trusted support will soon have you purring with satisfaction. VIRGO (August 23 to September 22) That uneasiness over a potential commitment should be confronted and dealt with realistically. Find out why you're delaying an important decision. LIBRA (September 23 to October 22) Your

business venture gets back into high gear after a brief period of sputtering. Don't be discouraged. Stay with it. Your hard work and patience will pay off. SCORPIO (October 23 to November 21) Watch out for a tendency to let things slide in hopes that a problem will correct itself. You need to be more proactive than reactive if you want to see change. SAGITTARIUS (November 22 to December 21) A wilting relationship could recover and be coaxed

back into full bloom, as long as there is a strong commitment to your partner to make the relationship your priority. CAPRICORN (December 22 to January 19) Before you accept a new job offer, check on the status of a promotion you were promised in your current workplace. Then, make a decision. AQUARIUS (January 20 to February 18) Expect to find yourself in a teaching situation on the job, which you will no doubt enjoy.

Don't be surprised if you get to learn a few things as well. PISCES (February 19 to March 20) You'd love to make a big splash with your new project. But you'd be wiser to introduce it to your colleagues in a more restrained way and let it speak for itself. BORN THIS WEEK: You're a practical person who also has a sense of adventure. You have a capacity for leadership that others often tap in to.
